Supervision: Making the hours count

In order to make the hours count a practitioner needs to find a way to be safely vulnerable....how do the settings of group and individual supervision facilitate that?

The more we can be open and honest in supervision the deeper we can reflect and grow as practitioners, the better the client outcomes.

Whether you are a supervisee (as all of us are) or also a supervisor, log on and experience how Jo and Cheryl create safety in supervision and how they work differently in individual and group supervision to develop and maintain that safe container.

This workshop will be followed by an interactive panel discussion, facilitated by Dr Cathy Bettman.
